PROFILE

Aspiring Data Analyst with a Master's degree in Digital Economy and a portfolio of end-to-end data projects (Python, SQL, Power BI). 5+ years of experience in management demonstrated strong problem-solving skills, ability to work under pressure, and team leadership. Currently a Data & Analytics Intern.

PROFESSIONAL EXPERIENCE

Data & Analytics Intern, KPMG 01/2026 – Present | Katowice

- **Data Quality & Validation:** Verifying the consistency and accuracy of large-scale financial datasets.
- **Workflow Automation:** Automating repetitive tasks and streamlining data preparation processes using Alteryx.
- **Large-scale Data Handling:** Processing and integrating data from multiple sources in Excel (Power Query, Pivot Tables, complex lookup functions).
- **Audit Analytics:** Performing specialized audit tests and data analysis using Caseware IDEA.
- **Cross-functional Collaboration:** Delivering high-quality analytical reports within the Audit Support Center, effectively managing tight deadlines and high-pressure environments.

Floor Manager, Antonio restaurant 2021 – Present | Gliwice

SKILLS

Data Visualization & Analysis — Microsoft Power BI (DAX, Power Query, Data Modeling), Excel (Advanced functions, Pivot Tables), **Languages & Databases** — Python (Pandas, NumPy, Matplotlib), SQL (PostgreSQL, Queries, Joins), **Tools & Environment** — Git & GitHub, VS Code, Linux Terminal (WSL/Ubuntu), **Soft Skills** — Team Leadership, Problem Solving, Work Organization, Client Communication, Conflict Resolution

PROJECTS

IT Job Market Analysis Dashboard, 2026
Power BI, Python, DAX

- **End-to-End ETL Pipeline:** Developed a custom Python script (BeautifulSoup, Pandas) to scrape over 2,400 active job postings, extracting salary ranges and tech stacks.
- **Advanced Data Modeling:** Built a Star Schema model with a dedicated bridge table to handle many-to-many relationships between job offers and skills, preventing data duplication.
- **Complex Data Cleaning:** Utilized Power Query to standardize currencies (converting EUR/USD to PLN) and extract a "remote" work flag from location data.
- **DAX & Analytics:** Implemented advanced measures using DISTINCTCOUNT and context transition logic to accurately calculate requirements per offer and compute dynamic average salaries.

- **Data Visualization & Storytelling:** Designed an interactive, 3-page, UX-focused dashboard visualizing key trends (salary vs. skill popularity) and identifying high-paying technological niches.

Global Streaming Catalog Analysis,

2025

Power BI, Power Query, DAX

- **Complex Data Integration:** Combined diverse datasets from Netflix, Amazon, and Disney+ into a single, cohesive analytical model using Power Query.
- **Advanced Modeling:** Resolved cross-platform "ID collision" issues by engineering composite Primary Keys.
- **Dashboard UX/UI:** Designed a highly readable dark-mode dashboard featuring custom navigation buttons and drill-through functionality for deeper detail analysis.

EDUCATION

Uniwersytet Ekonomiczny w Katowicach,

2023 – 2025 | Katowice

Master's Degree in Digital Economy

Uniwersytet Ekonomiczny w Katowicach,
